# HKICON

Hong Kong Institute of Architectural Conservationists  
香港建築文物保護師學會

## About the CPD Talk:

Since the discovery of the former service reservoir structure at Bishop Hill in late December 2020, there has been a wave of passion for heritage from the general public and professionals from the conservation and construction sector in Hong Kong.

This CPD talk will provide an overview of the current statutory and administrative regulations and an understanding of the framework and resources available. The next time you come across an historic building, you will know what to do and what direction to take.

## About the Speaker:

**Sr. Candy P W Chan,**  
**MRICS, MHKIS, RPS(GP), HKICON**

Candy Chan is a chartered general practice surveyor with dual expertise in the property development and heritage conservation industries. She is experienced in both the private and public sectors including working with a major property developer, an international real estate consultancy and the Antiquities and Monuments Office in Hong Kong. In 2014, she began her own consultancy to provide development and conservation advisory services and she has been involved in a number of conservation studies and conservation-cum-development projects. In 2019, she became the Vice President (External Affairs) of HKICON and is working to encourage more corporation between different professional institutions and HKICON, so as to promote a better understanding of architectural conservation.
